LET THE FLAME BURNING, THOUSAND LIGHTS DELIGHT!!!

As we flip the page of 2024, we bid farewell to the past and step into a year brimming with hope, aspiration and possibility. The year 2024, with its share of triumphs and challenges, has shaped us, taught us, and prepared us for the journey ahead for the New Year, 2025. During the year gone by, we have achieved glories all along with little mix of turbulent times, little jolt of professional hazards, little betrayal of our aspirations as well. While we could clinch an exemplary growth in terms of our emoluments, we at the same time fell short of sealing the much desired 5 days' work-week, we botched to flash the light of delight through a little respite from manpower shortages, we failed to glitter the fortune of dedicated bankers who finds it extremely difficult to square their work-life expectations. The coming year thus shall keep us bustling in shaping our future course of actions to give shape to our own destiny in style much suited to our destined cult as financial soldiers of the country.

2. While we strive for our collective growth as bankers, we cannot at the same time cast a blind eye to the society we live in. History remains a witness decrying, repenting alone fructifies our misery rather our fortune lies in shaping our dreams where our collective might shall make the protagonist succumb. Now, as we stand on the threshold of a new beginning, it is time to reflect, renew and embrace the future with open arms but with rock-solid determination. Reflecting on the past year, we have witnessed how the world underwent unprecedented transformations, both in the workplace and beyond. The global challenges posed by the A. I on the one hand making lives easy and on the other posing serious threat to job market. The world is evolving rapidly and so the competition and we must equip ourselves with the tools and knowledge needed to thrive in an ever-changing landscape.

3. We have to adapt to new challenges, absorb new technologies, counter the threats of ever evolving technological hazards and find opportunities lying underneath. We have to be the change that we want to see in others in order to

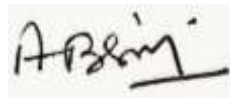

change the social fabric. This New Year amidst all obscurities, presents a unique opportunity for personal growth, an inimitable opening for collective prosperity. It is a time to set ambitious goals, to break free from old patterns, remould our thought process and to cultivate positive habits. Whether it is pursuing a long-held dream, strengthening relationships, or making a positive impact on our communities, 2025 beckons us to strive for excellence and make the most of every moment.

4. As we embark on this new chapter, let us remember the importance of compassion, empathy, and the strength of unity. Let us strive to build a more inclusive and equitable society, where everyone has the opportunity to thrive. Resolute we stand to celebrate the gracious 2025 with cherished friendship and family wellbeing. We shall cultivate gratitude for the blessings in our lives. The year 2025 be filled with joy, success, and meaningful contributions coxswaining the camaraderie to its epic manifestation. **Happy New Year-2025!!!**
